A note from Rep. Mike Coffman:

Contrary to what was printed in the Denver Post on Wednesday, I want to clarify that I DO unquestionably support a full repeal of Obamacare. I co-sponsored legislation early last year to do just that. As I opined in the Denver Post a year ago, I consider the health care reform agenda signed into law in 2010 not just ...bad policy, but " an affront to the Constitution and an unlawful expansion of federal power .
