Coffman Responds to President's NASA Announcement

(WASHINGTON) - Rep. Mike Coffman (R-Aurora) released the following statement today reacting to President Obama's NASA announcement:

"I was deeply troubled by the President's initial decision to cancel the Constellation program and the corresponding loss of jobs in Colorado. Today's news is a welcome reversal of that strategic error. America's space program has long been an engine of innovation for our economy and a source of great paying jobs here in Colorado. I have always been an ardent supporter of Colorado's space industry and I look forward to continuing the fight to preserve America's space leadership well into the 21st century."
