

While the Democrat's healthcare bill, House Resolution 3200, America's Affordable Health Choices Act, doesn't expressly prohibit Health Savings Accounts (HSA's), it doesn't include them in the definition of a "qualified health benefit plan." Mr. Cantor offered an amendment at the House Ways & Means Committee markup of H.R. 3200 to add high-deductible plans with HSA's to that definition. This amendment was defeated. See the press release from Mr. Cantor's office [here](#) .
