

## **Coffman: Clean Troop Funding Supplemental is a Win for Taxpayers**

**(WASHINGTON)** - Rep. Mike Coffman (R-CO) issued the following statement today after voting for the Senate amended version of H.R. 4899, the emergency troop funding bill:

“Today’s vote is a win for our men and women in uniform and it is a win for the American taxpayer. Our troops are at war, and this funding bill provides the support they need to complete the mission that has been asked of them.”

“Despite continued attempts by Democrats in this chamber to attach billions in wildly unrelated spending measures to this bill, and advance a liberal agenda on the backs of our troops, we have a clean bill to vote on because the Senate flatly rejected the House passed version.”

“A clean troop funding supplemental should have been passed months ago, but Democrats

leaders in the House could not muster the political will to keep emergency funding for our troops separate.”
