

Coffman Lauds "Pledge to America"

(WASHINGTON) - Rep. Mike Coffman (R-Aurora) today released the following statement on the House Republicans' "Pledge to America." The pledge is the culmination of a months-long engagement with the American people in which House Republicans sought their ideas and priorities for Congress. Coffman held numerous events as part of this process over the last six months:

"Our Pledge, introduced today, does what Democrat leaders here in Washington have continually failed to do: listen to the American people and pursue an agenda that reflects their priorities. The American people have been crying out for Washington to listen. We are listening and this is our agenda which focuses on the things that matter most to the American people."

"We pledge to enact pro-growth economic policies that will create jobs and grow the economy. We pledge to stop the Democrats' reckless spending spree and rein in the excessive growth and unconstitutional reach of the federal government. We pledge to restore fiscal accountability to our nation's capital and we pledge to establish operational control of our borders."

"These policies, and others, detailed in our Pledge to America are common sense solutions that reflect our citizens' priorities. My colleagues and I are calling on Nancy Pelosi and the Democrat leaders to finally listen to the American people and implement them today."
