

## **Coffman Statement on President's Request to Raise Debt Ceiling**

**(WASHINGTON)** - Congressman Mike Coffman (R-CO) released the following statement regarding the Obama Administration's formal request today to raise the national debt limit:

"Defaulting on our debt is definitely not a viable option, but there is no way we can raise the debt limit without putting an end to out-of-control government spending. We have a duty and a mandate to the American people to end this reckless spending spree, and use taxpayer dollars responsibly."
