

Coffman Statement on Latest Unemployment Report

(WASHINGTON) - Congressman Mike Coffman (R-CO) released the following statement today regarding the latest unemployment report released by the U.S. Department of Labor:

“Although today’s unemployment numbers are better than expected, they still indicate an anemic economy that is struggling to rebound under the failed policies of the Obama Administration. In July alone, the Obama Administration added hundreds of new burdensome regulations that will cost businesses billions of dollars. Democrats in Washington must wake up to the reality that their policies to tax, spend and regulate more are only creating uncertainty and debt instead of jobs and economic growth.”
