

Coffman Statement on October Unemployment Report

(WASHINGTON) - U.S. Rep. Mike Coffman, R-CO, released the following statement today after the Labor Department released its jobs report for October:

“Today’s dismal unemployment numbers underscore two sad facts—our economy is still no closer to recovery and that the current administration’s economic policies are a failure. I have voted for over 15 bills, that passed with bipartisan support, that would create jobs, yet the Democrat-controlled Senate refuses to consider even one for debate. I agree with President Obama when he says, ‘we can’t wait’ for job proposals, but unfortunately I cannot take him seriously until he urges his Democrat colleagues in the Senate to take up our jobs bills.”
